

Greenscape Conservation Seeders

The Finest MultiTask Landscape Machine Ever Developed!

Machine Features Include:

- Heavy tubular frame construction
- All ground driven, no PTO shaft or gearbox to maintain.
- Precision metering cups with individual clean out gates.
- Perfect pattern across full width of the working area. No row effect as with PTO driven machines.
- Rear roller packer rings to firm and smooth seedbed
- Water tight seed box with agitator shaft - Calibration chart and seeding rate chart
- Driven spiked rollers crumble soil just enough for perfect seed to soil contact.
- Exclusive Torque Arm – keeps constant adjustable down pressure on cultipacker.

Options Available:

- Twin seed boxes for seeding two different types of seed with one pass.
- Additional drive sprocket combinations to achieve any seeding rate desired.
